Executive Summary

I'm an independent, self-motivated aspiring full-stack developer currently studying at Code Institute. With a background in math and experience as a teacher and intern supervisor, I've completed projects in both front-end and back-end development. I thrive on solving problems and collaborating with others, and I'm excited to continue growing as a developer with hands-on experience in real-world projects.

Education

September 2024 – Ongoing	**Diploma in Full Stack Software Development** *(Remote)* Code Institute - Dublin, Ireland - (Credit Rated by University of West of Scotland)
June 2016 – June 2017	**Math Teaching Degree** Lap University, Brazil
August 2010 – December 2015	**BSc Chemistry** Federal University of Technology, Brazil

Portfolio projects

1. [Best 1000 Movies Finder](#) - Movie recommendation app. Technologies used: Python, data analysis.

2. [Pin Head Lists](#) - Interactive list app. Technologies used: HTML5, CSS, and JavaScript.

3. [Climbing Rox](#) - Static blog about climbing. Technologies used: HTML5 and CSS.

Technical Skillset

Technologies:	**HTML5, CSS3, JavaScript, Python, Node.js**
Frameworks & Libraries:	**Pandas, TailwindCSS**
Version Control:	**Git, Github, Heroku**
Additional:	**Agile, Design Thinking, UX design, Test-driven development**

Work Experience

February 2023 - August 2024   **Math teacher**   **Futuraskolan Hertig Karl**
                                 Stockholm - Sweden

- Taught math for grades 6 to 9, collaboratively mentored grade 7/8;
- Taught programming logic and Python language using free resources;
- Gained strong problem-solving and adaptability skills by having to manage different knowledge levels and backgrounds in the classroom;
- Supervised an aspiring math teacher for 4 weeks, delegated tasks and guided after observing lessons.

February 2022 - February 2023   **Teaching Assistant/After School Care Teacher**   **ISSR**
                                   Stockholm - Sweden

- Provided support for students in grade 4 by constantly collaborating with the classroom teacher;
- Ran a coding club with another teacher using Scratch as the main technology.
- Gained extensive organizational skills as running the clubs required planning and collaboration every week.

August 2018 - July 2019   **English as Second Language Teacher**   **KNN**
                            Florianopolis - Brazil

- Taught English in a language school where classes had students of different ages;
- Planned lessons according to the school methodology;
- Improved immensely my communication skills by giving clear instructions;

Additional Training	**Additional Information**	**Languages**
- Software Engineering Coding Bootcamp - **App Academy**	- Participated in Hackathons hosted by Code Institute	- English - Fluent - Portuguese - Fluent - Swedish - Advanced
- Intro to Computer Science and Programming in Python - **MIT OpenCourseWare**	- Community leader
